

# BOYDEN-HULL COVID DATA DASHBOARD

10/29/20 — 2:00PM

No school on Friday, October 30

## KEEPING THE COMMUNITY INFORMED

In an effort to inform the community of the impact of COVID-19 on our district, we will begin sharing as much information as possible while also trying to protect the privacy of those affected. Please know that these efforts will be a work in progress and our district will make adjustments as well learn more during this pandemic. We share this information with you to keep well-informed.

<b>1 - 5</b>	PK-12 Active Cases	PK-12 Students/Staff who tested positive and currently in isolation. Numbers are presented in a rolling two week average and in range of five (5) to protect individual privacy. (Oct 16 - Oct 30)
<b>1 - 5</b>	PK - 12 Isolation /Quarantine	Students/Staff in isolation/quarantine due to positive test/close contact with a positive individual (5 day average) Numbers are presented in a range of five (5) to protect individual privacy. This number represents the week ending October 30.
<b>0.74%</b>	Isolation / Quarantine Rate	Students in isolation/quarantine due to positive tests/close contact with a positive individual as represented as a percentage of our total student population. This will be a five (5) day average.
<b>19.1%</b>	County Positivity Rate	Sioux County 14 Day average positive rate as of the date and time shown above. This number can be very fluid, and the inclusion of this number on the dashboard is intended to represent a snapshot in time.

In a smaller school district like Boyden-Hull, breaking down smaller groups such as building, grade levels or providing updates more frequently than once each week may make certain cases easily identifiable which may constitute a violation of FERPA (Family Educational Rights and Privacy Act). It is the district's intent to update these numbers once each week and post this update to the District's webpage.
